SmartCheck[®]

Digital Ear Scope

When ear infections are a concern, turn to SmartCheck[®]

SmartCheck[®] turns your iPhone[®] or Android[™] smartphone into an otoscope that captures images and video of your child's eardrum to share with your healthcare professional.

For use with children 12 months* and older

SmartCheck[®] features

- **Connect with a doctor from home** and be prepared for ear infections 24/7
- **Optimizes your phone's optics and light** for physician-approved image quality
- **FREE SmartCheck[®] app** offering voice guidance and built-in "how-to" videos
- **HSA/FSA eligible** so you can use your Health Savings Account or Flexible Spending Account to purchase
- **Compatible with most iPhone[®] and Android[™] models**

See back for more information on using SmartCheck[®]

*Caregivers are instructed to ask their doctor before use if their child is 6 to 12 months.
